

Our Contributions to the COVID-19 Pandemic

Supported **40+ countries**, **138+ new IVD manufacturers'** responses to pandemic
Donated **over 3,000,000** immunoassay & PCR test materials
Provided test materials for **over 200,000,000 COVID-19 test kit manufacturing**

Products Available for Free Samples

Best Seller: Antibodies for Ag test

Recommended Pairs	Catalog No.	Source	Clone	Isotype	Application
Pair 1	FPZ0573	Mouse	8A8	IgG1	Conjugate
	FPZ0546		5E7	IgG1	Coating
Pair 2	FPZ0574		8F5	IgG1	Conjugate
	FPZ0546		5E7	IgG1	Coating
Pair 3	FPZ0548		5F9	IgG1	Coating
	FPZ0546		5E7	IgG1	Conjugate

Others Include:

- N & S proteins for Ab test (*Popular*)
- Antibodies for Influenza A/B Ag test (*Popular*)
- Anti-SARS-CoV-2 fully human RBD IgM & IgG QC materials
- Antigens for NAbs test
- Secondary antibodies
- RT-PCR mixes
- Enzymes for PCR test
- Magnetic beads for DNA/RNA extraction
- Proteinase K

About Fapon Biotech

Fapon (en.fapon.com) is a global leading IVD raw materials & one-stop solutions company founded in 2001. As one of the top IVD companies in Asia, Fapon serves some of the multi-nation leading diagnostic companies with 800+ partnerships worldwide.

Fapon offers an unmatched product combination of reagent raw materials and IVD one-stop solutions. The company has 700+ reagent raw materials available for the application of Rapid Test, ELISA, CLIA, CMIA, Molecular Diagnostics, Biochemistry. Plus the solutions for CLIA, Immunoturbidimetry, DNA Library Preparation that provide reagent and analyzer services, Fapon satisfies customers’ needs in different application scenarios.
